

**CITY OF LODI
COUNCIL COMMUNICATION**

AGENDA TITLE: Adopt a resolution authorizing the City of Lodi's participation in an Interlocal Agreement regarding the Recovery Act: Justice Assistance Grant (JAG) Program

MEETING DATE: May 6, 2009

PREPARED BY: David J. Main, Chief of Police

RECOMMENDED ACTION: That the Lodi City Council adopt a resolution authorizing the City of Lodi to participate in an Interlocal Agreement between the County of San Joaquin and the cities of Lodi, Stockton, Escalon, Manteca, Ripon and Tracy regarding the Recovery Act: Justice Assistance Grant (JAG) Program.

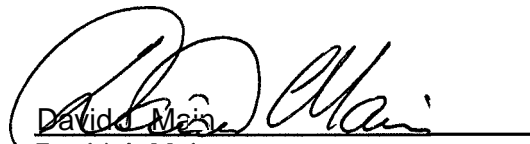

BACKGROUND INFORMATION: On February 17, 2009, the American Recovery and Reinvestment Act of 2009 was signed into law by the President of the United States. A portion of this Act includes one-time funding from the Edward Byrne Memorial Justice Assistance Grant (JAG). The purpose of the Recovery Grant is to allow for "State and local initiatives, technical assistance, training, personnel, equipment, supplies, contractual support, information systems for criminal justice, and criminal justice related research." San Joaquin County, along with the cities of Escalon, Lodi, Manteca, Ripon, Stockton and Tracy are eligible to receive a combined total of \$2,809,763. A unanimous agreement was made between all cities (a requirement in order for funding to be awarded) whereas the City of Lodi will receive \$150,000.

On April 21, 2009 the City Council approved a spending plan authorizing the purchase of technology related to criminal justice as a part of this agreement.

FISCAL IMPACT: This is one-time revenue that will be used to purchase needed equipment that otherwise would be a General fund expense.

**INTERLOCAL AGREEMENT
BETWEEN THE COUNTY OF SAN JOAQUIN, CA AND THE CITIES OF LODI, STOCKTON, ESCALON,
MANTECA, RIPON AND TRACY**

RECOVERY ACT: JUSTICE ASSISTANCE GRANT (JAG) PROGRAM AWARD

This Agreement is made and entered into this 9th day of June 2009, by and between The COUNTY of SAN JOAQUIN, including SAN JOAQUIN COUNTY PROBATION DEPARTMENT, hereinafter PROBATION; SAN JOAQUIN COUNTY PUBLIC DEFENDER, hereinafter PUBLIC DEFENDER; SAN JOAQUIN COUNTY DISTRICT ATTORNEY, hereinafter DISTRICT ATTORNEY; SAN JOAQUIN COUNTY SHERIFF'S OFFICE, hereinafter SHERIFF, acting by and through their governing body, the Board of Supervisors, hereinafter referred to as COUNTY, and the CITY of LODI, acting by and through its governing body, The City Council, hereinafter referred to as LODI, the CITY of ESCALON, acting by and through its governing body, The City Council, hereinafter referred to as ESCALON; the CITY of STOCKTON, acting by and through its governing body, The City Council, hereinafter referred to as STOCKTON; the CITY of MANTECA, acting by and through its governing body, The City Council, hereinafter referred to as MANTECA; the CITY of RIPON, acting by and through its governing body, The City Council, hereinafter referred to as RIPON; and the CITY of TRACY, acting by and through its governing body, The City Council, hereinafter referred to as TRACY; and collectively referred to as RECIPIENTS witnesseth:

WHEREAS, each Party, in carrying out the Recipient Programs, identified in Attachment A, shall make that performance or payments for Recipient Programs from Justice Assistant Grant Program (JAG) funds; and

WHEREAS, each governing body finds that the performance of this Agreement is in the best interests of the Parties and that the undertaking will benefit the public; and

WHEREAS, the COUNTY agrees to distribute the proceeds of the JAG award for the Recipient Programs identified in Attachment A; and

WHEREAS, the RECIPIENTS and COUNTY believe it to be in their best interests to reallocate the JAG funds;

NOW THEREFORE, the COUNTY and RECIPIENTS agree as follows:

Section 1.

COUNTY agrees to distribute the JAG funds for the Recipient Programs as identified in Attachment A.

Section 2.

RECIPIENTS agree to use the funds for the programs identified in the RECIPIENT proposals submitted to COUNTY, and included herein as Attachment A.

Section 3.

a. It is understood that the relationship between the parties is an MOU relationship between public agencies and not an agency; and nothing herein shall be construed to the contrary.

b. The Parties agree that nothing contained herein or in any document executed in connection herewith shall be construed as making the parties joint venturers or partners.

c. This MOU is made and entered into for the sole protection and benefit of the parties and their successors, and assigns. No other person shall have any right of action based upon any provision in this MOU.

Section 4.

Funding for the Recipient Programs is restricted to funds made available through the Justice Assistant Grant Program in the following amounts:

Entity	Gross Amount	Net Amount	Admin Charges
District Attorney	\$220,000	\$215,600	\$4,400
Probation	\$325,000	\$318,500	\$6,500
Public Defender	\$106,500	\$104,370	\$2,130
Sheriff	\$234,803	\$230,107	\$4,696
Stockton	\$1,413,697	\$1,385,423	\$28,274
Tracy	\$150,000	\$147,000	\$3,000
Manteca	\$150,000	\$147,000	\$3,000
Lodi	\$150,000	\$147,000	\$3,000
Ripon	\$29,882	\$29,284	\$598
Escalon	\$29,881	\$29,283	\$598
TOTALS	\$2,809,763	\$2,753,567	\$56,196

No Party may request or demand payment for Recipient Programs from any source of County revenue other than the JAG funds as set forth herein.

Section 5.

All notices required or provided for under this MOU shall be in writing and delivered in person or sent by certified mail, postage prepaid, return receipt requested, to the principal offices of the COUNTY and RECIPIENTS. Notice shall be effective on the date it is delivered in person, or the date when the postal authorities indicate the mailing was delivered to the address of the receiving party indicated below:

JUSTICE ASSISTANCE GRANT (JAG) 2009

ATTACHMENT A

Use proposals received from each jurisdiction:

San Joaquin County

The County Administrator's Office will withhold \$56,196 (2%) of the total value of the grant for administrative overhead costs.

The District Attorney's Office will use \$215,600 from the American Recovery and Reinvestment Act of 2009 –Justice Assistance Grant (JAG) Program to fund two Deputy District Attorney positions that will be assigned to prosecute misdemeanor offenses throughout the county. These two positions were to be eliminated, for the 2009-10 fiscal year, due to the lack of local resources. In keeping with one of the grants general purposes, this funding will be used to preserve two jobs and will allow the District Attorney to continue to prosecute a small portion of the misdemeanor offenses occurring throughout the county. A separate budget unit will be established to independently track the salary and benefits of the two positions for the period of July 1,2009 to June 30,2010.

The Public Defender will use funds to retain one Deputy Public Defender II. Defender already in place and performing these duties but is scheduled for layoff due to budget cuts.

Program narrative: Stockton's high crime rate includes thousands of misdemeanor offenses filed per year. The vast majority of those accused who have counsel are represented by the Public Defender. Meaningful and measurable objectives are to provide constitutionally required counsel for those accused; obtain and read crime reports and other discovery; meet with client to assess defenses to charges; investigate cases and obtain witness statements; assist in negotiated resolutions of such cases in view of limited court resources; and provide vigorous and competent defense in motions and jury trials where needed. Goal would be competent representation of 700 new misdemeanor files per fiscal year, handled by a single experienced misdemeanor defender. Most of these cases are to be closed (by plea, dismissal, or verdict) within the fiscal year, and the remainder within the following six months.

Sheriff's Office Distribution Model for \$230,107.00

Evidence Custodian	61,786
Evidence Technician	68,556
Senior Office Assistant	53,336
Dept ISA IV (Periods 10 Pay)	45,335
Total	229,013

JUSTICE ASSISTANCE GRANT (JAG) 2009

Personnel would be funded for a full year except for ISA IV funded for 10 pay periods.

Program Narrative:

The San Joaquin County Sheriffs Office will be utilizing the JAG Recovery Grant monies to staff the following positions, currently not filled that would have otherwise been eliminated from the 2009/2010 budget:

Evidence Custodian : This is a support position within the Sheriff's Office critical to the processing, collection, storage and distribution of evidence.

Evidence Technician: This is a field evidence technician responsible for the processing and collection of evidence related to investigations conducted by Patrol and/or Detectives.

Senior Office Assistant: This Senior Office Assistant position will be assigned as a Typist to the Records Division. This position is responsible to type recorded cases and process related documentation for all reports generated by the Sheriff's Office.

Additionally, the JAG recovery Grant will enable the Sheriff's Office to create and fund the Information Systems Assistant IV position for an additional 10 pay periods. This position is due to be funded for 13 pay periods (mid year). Funding through the JAG will allow this position to be funded sooner. The ISA IV position is critical to maintain, upgrade, and create information data systems utilized by the Criminal Justice system.

The Sheriff's Office will report to the County Administrators Office all draw downs on JAG funding for the 4 positions specified, keeping accurate record of all pay roll activity.

The Probation Department will use **\$98,000** (\$100,000 minus 2% CAO admin fee) of the JAG 2009 Local Solicitation program funding to support the Kids Alcohol/Drug Alternative Program (KADAP).

KADAP is a multi-agency treatment and Drug Court program. The Juvenile Drug Court refers minors with drug related offenses to KADAP for treatment. The program is housed at 3100 Monte Diablo Street in Stockton and provides probation services, two classrooms and substance abuse counseling all at one location. The intent is to foster success in all areas, and to address personal, family, and community issues. It is estimated that this funding will maintain one Probation Officer III position that would otherwise be at risk of being laid off, pending other funding for KADAP.

In addition, the Probation Department will also utilize \$220,500 (\$225,000 minus 2% CAO admin fee), to continue, at a reduced level, the successful Violent Crimes unit, to provide the

JUSTICE ASSISTANCE GRANT (JAG) 2009

most intensive level of supervision to San Joaquin County's highest risk and most dangerous offenders. This program, begun in 2006-07, is scheduled to be eliminated due to budget cuts in 2009-10. The Violent Crimes Unit has been made up of a Probation Unit Supervisor, a Probation Officer III, and three Probation Officer I/II's. The Violent Crimes Unit provides the most intensive supervision to high risk, dangerous offenders. These offenders have been convicted of crimes that include attempted murder, manslaughter, assault with a deadly weapon, violence against the elderly, robbery, gang violence, and weapon offenses. When fully staffed, Probation Officers make field contact with these probationers at least twice per month to visibly monitor compliance with court-ordered conditions of probation. The JAG Local Solicitation funding will be used to fund a Probation Unit Supervisor and a Probation Officer III, to continue to provide intensive probation supervision to the most violent, high risk offenders in San Joaquin County.

City of Stockton

The City of Stockton proposes to use its share of the JAG local solicitation funds to support job preservation in two program areas: 1) Law Enforcement, and 2) Prevention and Education Programs.

1. Law Enforcement – Funds are requested to preserve jobs for one Police Sergeant and six Police Officers, engaged in gang violence suppression activity, who would otherwise face layoffs effective June 30, 2009.

The Police Department's Gang Street Enforcement Team (GSET) is proven successful in reducing gang violence by targeting the most active violent gangs and gang members in Stockton; enforcing laws, court orders, and arresting gang members and associates; and seizing illegal weapons and narcotics.

The Police Department's Fiscal Affairs Section will work closely with the Special Investigations Division Gang Violence Suppression Unit to track all JAG Grant-related activity, facilitate draw downs, and report JAG Grant expenditures in coordination with San Joaquin County (serving as the lead agency for the local agency's participating in this "Joint Spending Plan"). With grant approval, GSET Officers can continue operations rather than experiencing a layoff. The funds will be used during the period of July 1, 2009, through June 30, 2010. The Police Department will report on the hours worked, gang members arrested, and guns and drugs seized by the GSET. The Department will also report on the reduction of crime in Stockton.

JUSTICE ASSISTANCE GRANT (JAG) 2009

2. Prevention and Education Programs – Funds are requested to preserve jobs for two Youth Outreach Workers, assigned to the Peacekeeper Program, who would otherwise be laid off effective June 30, 2009.

The Peacekeeper Program, staffed by Gang Youth Outreach Workers, has the responsibility of assisting with the reduction of gang violence among Stockton youth by coordinating comprehensive intervention and prevention strategies and focusing on gang-involved youth; especially those who have the highest risk of involvement. The program's Youth Outreach Workers are "street wise" and trained in conflict resolution, mediation, community organizing, mentoring, and case management. They work in neighborhood settings wherever young people who are at risk of violence are found; including schools, parks, street corners, community centers, and apartment complexes. Youth Outreach Workers interact daily with Police Officers at schools (School Resource Officers), Gang Investigators, school officials, Probation staff, the community, employers, faith-based organizations, and hundreds of youth, young adults and their families, in an effort to reduce gang violence. Program management and oversight comes from the Stockton City Manager's Office who will track all draw downs and JAG Grant expenditures separately from other federal funding, if any.

Program activities are ongoing, and with grant approval, Youth Outreach Workers will continue operations rather than being laid off. The JAG funds will be used to support Youth Outreach Workers for up to 18 months during the period of July 1, 2009, through December 31, 2010.

The Peacekeeper Program will track and report on the activities of the two Youth Outreach Worker positions as follows:

1. We will track the number of adults contacted by the Youth Outreach Workers in terms of interactions with parents, teachers, counselors, etc. This includes either one-on-one or group contacts (like a teacher awareness session).
2. We will track the number of youths who are contacted and the number of "new" intakes that are then placed on their caseload. This will be cumulative over the course of the grant.
3. We will track the number of youths who move between levels of intervention/prevention (i.e., Level one to Level two, Level two to Level three, or from Level two back to Level one, etc).

JUSTICE ASSISTANCE GRANT (JAG) 2009

The three levels of intervention and prevention are as follows:

Level one is the basic "evaluation" of the youth which includes a home visit, review of grades, attendance, and observation of their attitudes toward parents, teachers, and other authority figures along with their willingness and mindset to be receptive.

Level two is where the youth has been evaluated and found to be willing to accept guidance. The youth is then provided a variety of resources that may include anger management, gang awareness courses, etc., and the process of long-term mentoring takes place. This level demands the most time and effort on the part of the Youth Outreach Worker. Our primary focus at this level is education and the goal of high school graduation or GED, as appropriate.

Level three is where the youth has met their requirements regarding staying on course in school, doing community service, staying out of trouble, and has the mindset to value education and success. This is considered the "maintenance" phase where the youth continues being mentored and encouraged to stay on course.

If a youth fails to do their part in Levels 1, 2, or 3, they are moved to a lower level and advised to let the Youth Outreach Worker know when they are serious about change. If the youth later wants to try again, they can be placed back on the caseload and begin to once again work through the levels.

City of Stockton Total		1,385,423
Contribution to County Admin. Costs		28,274
TOTAL:		1,413,697

Budget Narrative

The JAG Program will be used to fund costs associated with interventions related to the youth gang and gun violence reduction in the city of Stockton. These efforts are part of the comprehensive violence reduction plan of the Special Investigations Gang Violence Suppression Unit (GVSU). The plan supplements six Police Officers, one Police Sergeant, and two Peacekeeper Outreach Workers.

\$147,000 TOTAL

JUSTICE ASSISTANCE GRANT (JAG) 2009

PROGRAM NARRATIVE:

The Crime Analyst equipment purchase will help us support the creation of a new Crime Analyst position funded through another source. The Crime Analyst will assist us in detecting and analyzing crime events and trends and assist in directing resources toward the resolution of the criminal conduct.

Surveillance cameras will be a mobile/portable platform to allow us to remotely monitor specific targeted areas as specified by the Crime Analyst, thereby assisting in the detection and prosecution of criminal offenses.

Our current fleet of 56 MDC's are aging and failing. This purchase represents the initial action to begin retrofitting the fleet with new MDC's. The new system will give us enhanced capabilities in that they can be removed from the vehicle and taken directly to crime scenes and their technology can be used to further the investigation and prosecution of the criminal cases.

The purchase of laptop computers will provide our investigators and command staff with affordable technology and will enhance our wireless communication capabilities. Additionally these laptops will be assigned as the primary source of database sharing upon the activation of the Emergency Operations Center.

City of Manteca

City of Manteca JAG Disparate Joint Spending Plan 2009

16 Panasonic Tough Book lap-top computers @ \$4600.00 each	\$73,600.00
2 Replacement Patrol Cars @ \$36,700.00 each	\$73,400.00
Total:	\$147,000.00

JUSTICE ASSISTANCE GRANT (JAG) 2009

Budget Narrative

The JAG Program will be used to fund the replacement of 16 in-car computer systems that have reached the end of their usable life. The currently used equipment is old enough the manufacturer will no longer provide a maintenance agreement for the systems. The computers are experiencing frequent failures resulting in a loss of communication with the Dispatch Center and can no longer process the up-graded report writing program.

The JAG Program will also fund the replacement of two patrol cars. The Department endeavors to replace marked patrol units at 100,000 miles due to increased maintenance costs and decrease in safety. This fiscal year there will be four patrol cars that will meet that level. Due to budget constraints, none of these vehicles are scheduled for replacement.

Program Narrative

The Manteca Police Department's core service is its patrol service. This is also the most dangerous of police duties. Much of the effectiveness, efficiency, and safety of the field officer depend on their ability to receive and process confidential information via their in-car computer system. Equally important is the mechanical dependability of the car the officers operate. The Manteca Police Department is committed to providing our officers with safe, good quality equipment.

City of Lodi

JAG Recovery Grant Narrative Lodi Police Department

Program Narrative

The Lodi Police Department is committed to providing the best public safety services ensuring that citizens feel safe and secure. Having up-to-date equipment and technology will enhance our current level of service. With the procurement of new OSSI software system (CAD/RMS/Report Writing) in 2009, funding for additional technology and replacement equipment will not be included in the City Of Lodi budget. JAG Recovery Grant funding for \$150,000 allocated to the City of Lodi will be used for technology and equipment as outlined below:

JUSTICE ASSISTANCE GRANT (JAG) 2009

Portable Radios \$70,000

Funding would facilitate replacing portable police radios within our agency. The majority of agency radios are outdated and in need of replacement. Several are in excess of 10 years old and parts are no longer available, or cost prohibitive. In 2011 we will be required to have transitioned to digital radio communication. The requested funds will purchase 36 new portable radios for patrol which will meet the upcoming requirements.

Wireless Broadband (2 year service) \$36,000

Improving the information that patrol officers can access from their vehicles is a valuable component to effective law enforcement. Wireless Broadband will enable officers to obtain information in the field, eliminating their need to come to the station, and expedite their ability to assist citizens. The continuation of wireless broadband service is not included in the City budget for the upcoming year or more.

OSSI Hardware. Software. Licensing \$25,000

The recently purchased fully integrated CAD/RMS/ Report Writing software system (OSSI) will be operational by July, 2009. The system includes many modules that will allow our agency be a more proactive in providing a high level of service. It also will enhance our ability to share information and work with outside agencies and the community. The amount allocated will cover costs for additional hardware, software and licensing fees to enhance the purchased system.

Mug Shot County interface \$10,000

The installation of this interface will provide patrol officers with the ability to develop mug shots on the spot. Officers can access the information in the field, leading to more responsive and effective law enforcement.

Mobile Command Vehicle Upgrades \$6,000

Upgrades to the Mobile Command Vehicle have not been funded through the City budget. Grant funding of \$6,000 will support much needed upgrades to the Mobile Command Unit including communication equipment.

Laser Labs Tint Meter Model 100

Many vehicles encountered by Ripon Police Officers have very dark window tinting applied to all windows. This tinting not only obscures a driver's vision beyond legal limitations, but also provides the opportunity to completely conceal the contents of, as well as passengers in the vehicle. Tinting on front windows, while violating California Penal Code, also affects witnesses' abilities to accurately describe perpetrators of crimes. Laser Labs' Tint Meter Model 100 allows officers to quickly and accurately measure the level of tint on vehicle windows, giving officers the ability to take potential perpetrator's vehicles off the street. The meter is hand-held, light-weight, and powered by a single 9-volt battery, making it easy to carry. The unit provides an accurate measurement in less than 5 seconds, and can allow an officer to educate a driver about the dangers of darker-than-legal tinting on-the-spot.

Nikon D300 12.3 MP DSLR Camera w/ 18-200mm lens, SB-900 flash and extra battery

While point-and-shoot digital cameras are the staple of routine crime-scene documentation, they lack the detail and clarity required for more complex crimes. As the economic uncertainty continues, crime within Ripon has taken a trend toward property crimes. These crimes require extensive documentation, and the greater detail of documentation translates into greater ability to find and apprehend the responsible individuals. A high-quality camera is one of the most fundamental components in crime-scene documentation. Modern digital single-lens reflex cameras are capable of capturing images which can be printed in poster-size, appropriate for use in investigations and court-cases.

MiniMate-D Digital/Analog Body Wire Kit

Body wires are the staple of confidential informant interactions, and are crucial equipment when working sting operations and covert investigation. While older-generation equipment is

JUSTICE ASSISTANCE GRANT (JAG) 2009

functional, recent developments in wireless technology have produced superior quality products that not only provide longer-range use and better-quality recordings, **but** also play a more safety-minded role, reducing the size and increasing the ability to effectively conceal recording and transmission equipment. This body-wire kit allows for informants and under-cover officers to obtain suspect statements and record them at safe distances.

NOPTIC Spotlight-mounted Thermal-Imaging Units

These devices place the utility of a thermal imaging unit in the hands of a patrol officer, with always-on convenience. Mounted above the light-housing on traditional movable spotlights, these units allow officers to find hot-spots hidden in orchards, parking lots, and city parks even in zero-light conditions. Whether the spotlight is on or off, the thermal imager provides a clear view of the area, highlighting hot areas with a white indication. Officers get a view of the area on their in-car computer screen, and can save snapshots from the unit, if needed for evidence.

Sunridge Systems Paging System

Often during a critical incident, one of the most important tasks –communicating critical information to command staff – can be overlooked. A solo dispatcher simply cannot make necessary telephone calls to Administration staff, while still handling communications from officers on-scene. This add-on to the department's computer-aided-dispatch system would allow for automated notifications of pertinent staff based on severity of critical incidents. This system incorporates text-based messaging to customizable groups of staff based on the type and severity of incident, and allows for on-demand notifications as well. Shifting this process to an automated system and off a dispatcher can free communications staff so they can better handle incidents, not having to worry about calling the appropriate staff.

Dispatch Monitor Arms

As the City of Ripon grows, so do the responsibilities of public-safety dispatchers. The amount of information available to help dispatchers more-efficiently handle calls is growing, however physical screen real-estate to display this information has not grown. These monitor-mounting arms are a critical component in displaying information to dispatchers to facilitate more informed decisions about which officer is closer to a call, and which calls require extra staffing to respond. Expanding to multiple screens allow dispatchers to have constant view of vehicle positions and mapping information, providing situational-awareness, and increasing efficiency.

H91N Encore Monaural Headset, CA12CD Wireless Encrypted Dispatch Adapter

These two components, both headsets and encrypted-wireless adapters are a vital link, connecting dispatchers to phone calls and radio traffic. Wireless headset adapters allow dispatchers to move around the communications center without being tethered to a desk. This allows them to maintain monitoring of phone calls and radio traffic while retrieving printouts, filing paperwork, and interacting with walk-in customers. Encryption of the wireless traffic

JUSTICE ASSISTANCE GRANT (JAG) 2009

prevents prying-ears from eavesdropping on phone calls, which can often contain confidential and privileged information.

F Series K-9 Deployment and Heat Alert System

The F-Series K-9 Deployment and Heat Alert System provides increased safety for both K-9 Officers, and their canine partners. The system includes heat-monitoring functions which can activate fans or roll-down vehicle windows in the event a K-9 vehicle becomes dangerously hot, and can allow the Officer to remotely open a vehicle door to deploy the canine from a distance. The system is comprised of a in-car display, as well as a remote pager the officer can wear, which provides audible alerts should the K-9 vehicle reach a potentially dangerous temperature. Components are included which can release and push open a door, roll down vehicle windows, or activate a fan.

Prevention and Suppression of Crime

These products represent invaluable tools for Ripon Police Department's staff, increasing their ability to find suspects and make apprehensions, as well as officers' efficiency and accuracy in gathering evidence which can be used to prosecute those responsible for crimes.

City of Escalon

The City of Escalon will be receiving \$28,882.00 from the Justice Assistance Grant Program. The city is looking at using those funds to assist in mitigating the costs of the following programs to upgrade its systems to allow better efficiency and bring the department up to current standards. The following breakdown is the anticipated expenditure list for what is planned:

1.	New communications antenna for police building	\$11,000
2.	Property and evidence management system	
	software to allow for bar coding of evidence	\$ 5,500
3.	Upgrade the police range to computer assisted training	\$12,382
	Total	\$28,882

Program Narrative:

The new police communications antenna will provide the police department enhanced communication capabilities and is part of our five year plan to change over to a digital communication system per Federal law. This antenna will allow the police department the security of knowing that it meets current earthquake and wind resistance standards, along with the ability to support the projected plan of transitioning to a digital system. The current antenna will continue to be used as a back up

JUSTICE ASSISTANCE GRANT (JAG) 2009

system for the police department in the event of some unforeseen system failure. Therefore, the majority of the workload will be placed on the new antenna to support all communication functions and to also allow for interoperability capabilities.

Obtaining the software for our property and evidence computer management system will allow us to use bar coding in our evidence room and streamline our operation. Efficiency, effectiveness, and organization management are the goals in which we want to achieve with a bar coding system. The evidence technician will have the ability to track all evidence and property and create a systematic purging system. In turn, allowing a better chain of custody record system. In addition to the benefits for the evidence technician, the officers will also benefit from a semi paperless system. Funding will be applied to the software, printer, labels and scanner.

Upgrading the firearms training and qualifications range will provide the officers with an enhanced environment that is, not only up to current case law and regulations, but one that will be able to support future growth and expansion with the department. The range will be able to accommodate patrol staff training in allowing them to train in shoot don't shoot situations, moving man and multiple type situations. All personnel will be able to create real life type scenarios in addition to the training that is required, i.e. vehicle shootings, climate controlled environments etc... Grant funding will be applied to all the mechanical equipment for the different scenarios.

The department budget is overseen by the Chief of Police. Each grant, if awarded, will be monitored separately due to what is already predetermined and outlined above. The allocated funds represent the amount of money that will be in addition to the total costs of the projects.

With a new police building in the process of being constructed, the communications antenna and property and evidence bar coding software shall be installed and operating fully by the end of September 2009. The economic benefit for the department will be in the area of allowing personnel more time in the field to be proactive in the community and generating revenue from those who do not wish to follow the laws set forth by the State of California. The timeline for upgrading the firearms range is estimated to start in August 2009 and be completed in November 2009.

Our grant objective is to upgrade and streamline. Granted this will take time to adjust to a new system and rules to follow, however, within the time period allotted for the duration of the grant, we will have the opportunity to test the system and how it has assisted the department in achieving its objectives.

A RESOLUTION OF THE LODI CITY COUNCIL
AUTHORIZING THE CITY OF LODI'S PARTICIPATION IN AN
INTERLOCAL AGREEMENT REGARDING THE RECOVERY
ACT: JUSTICE ASSISTANCE GRANT PROGRAM

=====

WHEREAS, on February 17, 2009, the American Recovery and Reinvestment Act of 2009 was signed into law by the President of the United States and a portion of this Act includes one-time funding from the Edward Byrne Memorial Justice Assistance Grant (JAG); and

WHEREAS, the purpose of the Recovery Grant is to allow for "State and local initiatives, technical assistance, training, personnel, equipment, supplies, contractual support, information systems for criminal justice, and criminal justice related research; and

WHEREAS, San Joaquin County, along with the cities of Escalon, Lodi, Manteca, Ripon, Stockton, and Tracy are eligible to receive a combined total of \$2,809,763; and

WHEREAS, a unanimous agreement was made between all cities that the City of Lodi will receive \$150,000.

NOW, THEREFORE, BE IT RESOLVED that the City Council of the City of Lodi does hereby authorize the City of Lodi to participate in an Interlocal Agreement between the County of San Joaquin and the cities of Lodi, Stockton, Escalon, Manteca, Ripon, and Tracy regarding the Recovery Act: JAG Program.

BE IT FURTHER RESOLVED that the City Council of the City of Lodi does hereby authorize the City of Lodi to accept awarded funding in the amount of \$150,000 from said JAG Recovery Grant to purchase technology and equipment related to criminal justice.

Dated: May 6, 2009

=====

I hereby certify that Resolution No. 2009-55 was passed and adopted by the City Council of the City of Lodi in a regular meeting held May 6, 2009, by the following vote:

AYES: COUNCIL MEMBERS – Hitchcock, Johnson, Katzakian, Mounce, and Mayor Hansen

NOES: COUNCIL MEMBERS – None

ABSENT: COUNCIL MEMBERS – None

ABSTAIN: COUNCIL MEMBERS – None

RANDY KOHL
